California Proposition 65

We care about our customers' safety. Many of the products listed on our web site require a California Prop 65 warning as most contain chemicals such as nickel compounds, lead, phthalates, and Triglycidylisocyanurate = 1,3,5-Triglycidyl-s-triazinetriene = TGIC = CAS Number 2451-62-9. California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels.

WARNING: These products may contain Triglycidylisocyanurate or other chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. **Do Not Consume.**
